Forex kitty jumps \$3.5 billion to \$599.53 billion

Mumbai: India's forex kitty jumped \$3.553 billion to \$599.53 billion for the week ended May 12, the RBI said. The overall reserves jumped by \$7.196 billion to \$599.57 billion for the previous week. For the week ended May 12, the foreign currency assets increased by nearly \$3.577 billion to \$529.598 billion, according to the Weekly Statistical Supplement released by the RBI on Friday.

NTT and Cisco launch IoT-as-a-Service solution

Bengaluru: NTT Ltd. and Cisco have announced a collaboration to develop and deploy solutions that support large organisations' sustainability goals. Solutions developed by the two companies will offer real-time data insights, security, improved decision-making, and reduced operational costs via predictive maintenance capabilities. OUR BUREAU

PNB Q4 net surges 47% to ₹1,159 cr on better recoveries

ON TRACK. CEO Goel says confident of bringing down NPA levels, bullish on credit growth

KR Srivats
New Delhi

66

I don't see deposit rates going up further. Interest rates in the system have already peaked and would, after some time, start coming down

ATUL KUMAR GOEL
MD & CEO
Punjab National Bank

Punjab National Bank (PNB) reported a 47% per cent increase in standalone net profit for the fourth quarter ended March 31, 2023, at ₹1,159 crore (₹201 crore). In the December 2022 quarter, the bank recorded a net profit of ₹629 crore.

Encouraged by strong bottomline performance, PNB is now eyeing full-year profit of over ₹4,000 crore this fiscal (2023-24), Atul Kumar Goel, Managing Director and CEO, said here on Friday.

The latest quarterly bottomline performance of the bank was its best in the last 12 quarters, he added.

On a consolidated basis, PNB reported a net profit of ₹1,741.11 crore in the fourth quarter ended March 31, 2023, as against a net profit of ₹660 crore in the December 2022 quarter. This was also much

higher than the net profit of ₹245 crore in the March 2022 quarter.

HIGHER RECOVERY

Goel attributed the strong bottomline performance to better recoveries from non-performing loans. Consistently, quarter-after-quarter last fiscal (2022-23), PNB made a higher recovery while

slippages came down in each of these periods. Goel said that the bank is confident of bringing down its gross NPA level as a percentage of advances to less than 7 per cent this fiscal year and that of net NPA to less than two percentage points.

For the entire fiscal 2023-24, PNB has pegged the recovery target at ₹22,000 crore. Last fiscal, the recovery target

was ₹32,000 crore, of which the bank achieved about ₹29,000 crore.

CREDIT GROWTH

Goel said that PNB expects its overall credit growth during the current fiscal year to be 12-13 percent. It was 12.68 per cent in 2022-23. On deposit growth, Goel said that he sees deposit growth of 10-11 per cent.

"I don't see deposit rates going up further," Goel noted.

He also said that interest rates in the system have already peaked and would, after some time, start coming down. Goel said that PNB will focus this fiscal on ramping up its gold loan portfolio besides enhancing credit to NBFCs.

Asked about the likely impact of expected credit loss (ECL) provisioning, Goel highlighted that this was only at the draft stage and one would have to wait for such a framework to be implemented by the regulator.

FINANCIAL PERFORMANCE

Commenting on the financial performance, Girish Kousgi, Managing Director and CEO, PNBHFL, said,

PNB Housing Finance Q4 net up 65% to ₹279 cr

KR Srivats
New Delhi

PNB Housing Finance Limited (PNBHFL) has reported a 65 per cent year-on-year increase in net profit for the fourth quarter ended March 31, 2023, at ₹279 crore.

For the entire 2022-23 fiscal, PNB Housing Finance's bottom line came in at ₹1,046 crore, up 25 per cent over the net profit of ₹836 crore recorded in the previous fiscal.

IMPROVED NII

For the quarter under review, net interest income improved by 57 per cent year-on-year.

In FY23, net interest income stood at ₹2,346 crore, registering a 26 per cent increase over ₹1,869 crore in the previous fiscal, PNBHFL said in a filing with the stock exchanges.

RIGHTS ISSUE

Referring to the recent rights issue, which got oversubscribed 1.21 times, Kousgi said this demonstrates the investors' confidence in the company. Rights earlier in the year suggested that Zee had offered to pay back the loan to IDBI.

The infusion of capital will enable the company to capitalise on the available growth opportunities, he added.

PNBHFL had recently completed its rights issue of ₹2,493.76 crore.

NCLT quashes IDBI's insolvency plea against Zee

Our Bureau
Mumbai

The National Company Law Tribunal (NCLT), on Friday, rejected IDBI Bank's insolvency plea against Zee Entertainment. The bank had applied for insolvency to recover dues of ₹149.60 crore.

IDBI Bank appealed to the NCLT in December last year, claiming ₹149.60 crore. The amount was under dispute between Zee Entertainment and IDBI Bank.

Counsels representing Zee argued before the NCLT that since the default happened on a date during the suspension period, the insolvency petition can't be admitted under Section 10A of the Insolvency and Bankruptcy Code, 2016.

Reports earlier in the year suggested that Zee had offered to pay back the loan to IDBI.

While the CCI has approved the Zee-Sony merger in 2022, after Zee fought a legal battle with one of its larger shareholders, Alabama-based Invesco, it continues to fight cases of insolvency pushed by its creditors.

Rise in provisioning pulls down Bandhan Bank's Q4 net 58% to ₹808 crore

Our Bureau
Kolkata

quarter of FY22, and so it did not have to take any further provisioning during the subsequent quarters.

However, during 2022-23, the bank has been taking provisions every quarter, so the net profit during Q4 of FY23 may not be comparable with the same period last year. On a sequential basis, net profit during the quarter under review was up by nearly 178 per cent from ₹290 crore in Q3. Provisions during the quarter had increased by over 91 per cent to ₹1,542 crore.

LACK OF PROVISIONING

"We had taken an accelerated provisioning of around ₹4,000 crore in the second

quarter of last fiscal, and this had resulted in a net loss for the bank. But we did not have to do much provisioning during the third and fourth quarters. However, this year we have taken provisioning every quarter," Ghosh told newscasters at a press conference post announcing

the bank's results here on Friday.

The bank's board has recommended a dividend of ₹1.50 per equity share with a face value of ₹10 each (15 per cent) for the financial year ended March 31, 2023.

Net interest income dropped by nearly three per cent to ₹2,472 crore during the quarter under review as against ₹2,539 crore during the same period last year. Non-interest income came down by 35 per cent to ₹630 crore (₹970 crore).

The bank registered a 1,642 per cent jump in net profit to ₹2,195 crore for the year ended March 31, 2023, as against ₹126 crore in FY22.

The net interest margin came down to

7.3 per cent (8.7 per cent). It expects NIM to be around 7.5 per cent in FY24.

The bank is expecting close to 20 per cent growth in deposits and advances in FY24. It had witnessed close to 10 per cent growth in advances during 2022-23.

ASSET QUALITY

On the asset quality front, the share of gross non-performing assets as a percentage of advances decreased to 4.87

per cent (6.46 per cent), while net NPA came down to 1.17 per cent (1.66 per cent).

"The bank registered close to 12 per cent growth in advances during the fourth quarter of FY23. So we expect normalcy to come back, and we are doing well and are on the path of growth," he said.

The bank's scrip closed at ₹237.95, down by 2.48 per cent on the BSE on Friday.
